

ELJON ENESI

eljonenesi9@gmail.com | [linkedin.com/in/eljonenesi](https://www.linkedin.com/in/eljonenesi) | <https://eljonenesi123.github.io/CV>

IT professional with hands-on experience across SAP ERP administration, full-stack web development, and end-to-end IT operations. Proven track record managing infrastructure, building e-commerce platforms, and supporting enterprise systems in fast-paced environments. Equally comfortable configuring SAP S/4HANA modules, writing JavaScript, and resolving hardware issues — with a degree in Business Administration with Informatics in Germany and certifications from SAP, Google, Cisco, and Oxford.

EXPERIENCE

One Albania

Information Technology Specialist

May 2025 – Present

Tirana, Albania

- Managed end-to-end IT infrastructure including Active Directory administration, domain enrollment of company devices, group policy configuration, and Microsoft 365 user provisioning and troubleshooting.
- Administered and customized SAP ERP modules to streamline internal business processes, reporting, and cross-departmental workflows.
- Developed and maintained internal web tools and dashboards using HTML, CSS, and JavaScript, improving operational visibility and automating routine reporting tasks.
- Supported network operations including proxy configuration, physical rack work, cable patching, and basic switching to maintain reliable connectivity across the organization.
- Managed IT support tickets through Jira, coordinated hardware and software procurement, and maintained documentation for system configurations and IT procedures.

Fintrade LTD.

IT Specialist Intern

February 2024 – August 2024

Tirana, Albania

- Managed IT procurement processes including hardware and software acquisition, ensuring timely delivery and cost efficiency.
- Administered Tradogram procurement platform, optimizing supply chain management workflows and system configurations.
- Provided technical support and troubleshooting across the organization, minimizing downtime and ensuring smooth operations.
- Developed and maintained documentation for IT procedures and system configurations, ensuring compliance and consistency.

EPPC Albania & Kosovo

IT Consultant / Support Intern

June 2021 – September 2021

Tirana, Albania

- Configured and customized Microsoft Dynamics NAV (Navision) ERP systems to support client business operations.
- Applied Business Informatics knowledge to integrate and optimize business processes with technology solutions.
